Description:

Turntable for setting up/feeding and/or collecting empty and full packaging. The turntable can be placed at the front or back of the production line for buffering different types of packaging.

Film: <https://www.youtube.com/watch?v=Nsku3p29Pw0>

Advantage:

Collecting empty and full packaging so production can continue.
Time saving by putting the packaging on or off in one go.
Higher filling and closing capacities are possible.

Options:

Adjusting the turntable for a different packaging size.
Expansion of the turntable by means of a sliding piece on or off.
Distribution piece at the feed turntable so packaging always ends up on the conveyor belt.
Custom-made format piece for different packaging diameters.
